

# WINTERS RACING RACE REPORT

August 12<sup>th</sup>, 2007

## THE HEAT WAS ON IN BRISTOL

*And we mean some serious heat and humidity!*

Anyone who has ever drag raced in Bristol knows that the track elevation alone can make tuning difficult. Add the mid summer heat and humidity both in the 90's, and you really have some serious obstacles to overcome if you think you can stay competitive.

Despite the fatigue and elevation challenge Winters Racing is happy to report another strong performance at the AHDR **Thunder in the Valley Nationals** held on August 12<sup>th</sup>, 2007 in Bristol, TN.

In his main class, SEP Screamin' Eagle Performance, Kevin qualified midfield out of a large group of national drivers. On his way through rounds, Kevin managed to eliminate the weekend's number one qualifier with a strong .037 light. Kevin then went on to the SEP semi-finals. The eventual SEP loss came against a good friend and tough competitor, Gregg Best who won in an extremely close run to advance to the next round. Best went on to win the SEP event and we congratulate him on his victory.

In Kevin's other class, SE Super Eliminator, he went on to the first round in the afternoon before being eliminated before the quarter finals.

"I was happy to go to the semi finals despite the heat and it turned out to be a good point standings weekend for us" said Kevin afterwards.

We hope to see you in Richmond next month,  
Winters Racing Crew
