

**AHDRA  
Bike Week Nationals  
Gainesville, FL March 4<sup>th</sup>, 2007**

The weather was a major factor in this race and proved to complicate everyone's weekend. The rain came and went pretty much all three days severely limiting several qualifying sessions. In a new class for Winters Racing in 2007, Kevin qualified strong in 11<sup>th</sup> place in SE Super Eliminator but unfortunately lost in the second round. SEP Screamin' Eagle Performance had DNO, weather being a significant factor. With all the modifications and major changes done to the drag bike over the off season, we have much to do getting the bike running consistent. However, there were some very promising signs of better performance we look forward to taking to the next AHDRA event.
